# LEATHERMAN'S LAWN GRASSES

*Mixtures to meet all Lawn and Grass cover requirements*

## McKINLEY PARK MIXTURE

A splendid mixture for the fine leaved permanent lawn. It is made up of heavy re-cleaned Kentucky Bluegrass, plus the best Fescues (including the new Pennlawn) and Bent. Contains no white clover. McKinley Park equals in value many much higher priced mixtures.

1 lb. \$1.25 — 5 lbs. \$5.75 — 10 lbs. \$11.00 — 25 lbs. at \$1.05 lb. — 50 lbs. at \$1.00 lb.

## SHADY DELL MIXTURE

Containing a much larger proportion of varieties that will thrive in the shade, Creeping Red Rescue and Poa Trivialis

1 lb. \$1.25 — 5 lbs. \$5.75 — 10 lbs. \$11.00 — 25 lbs. at \$1.05 lb. — 50 lbs. at \$1.00 lb.

## EVERGREEN MIXTURE

A first class blend of re-cleaned Kentucky Blue, Fescue, Red Top, Rye Grass for quick starting, and some White Clover. Capable of producing a good permanent lawn, durable, yet fine leaved.

1 lb. \$1.00 — 5 lbs. \$4.50 — 10 lbs. \$8.50 — 25 lbs. at 80c lb. — 50 lbs. or more at 75c lb.

## QUIKGREEN MIXTURE

The mixture for quick results where fine texture is not of first importance. Better than most low priced mixtures as it contains at least a quarter million seeds of Kentucky Blue in every pound. Contains White Clover.

lb. 70c — 5 lbs. \$3.25 — 10 lbs. \$6.00 — 25 lbs. at 57c lb. — 50 lbs. or more at 55c lb.

## SUR-GRO MIXTURE

Hardy grasses that make a green cover in the shortest possible time.

1 lb. 40c — 5 lbs. \$1.80 — 10 lbs. \$3.40 — 25 lbs. at 32c lb. — 50 lbs. or more at 30c lb.

## PURE MERION KENTUCKY BLUEGRASS

Merion has definitely established its superiority as compared to Kentucky Blue, in these characteristics. It has lower habit of growth, standing closer cutting, remains greener in midsummer, spreads by underground root stalks with more vigor, making a close sod quicker, so is better able to crowd or hold out crabgrass and weeds.

Merion may be sown alone or in mixtures with Fescues or other grasses as you would Kentucky Blue. Sown alone use at least 2 lbs. per 1000 sq. ft. Liberal feeding is necessary for best results.

1 lb. \$2.45 — 5 lbs. at \$2.35 lb. Ask for quantity prices.

## MERION BLUEGRASS MIXTURE

**Merion and Kentucky Bluegrass and Fine Fescues**

These three grasses make an excellent blend for a thick rich and permanent turf.

1 lb. \$1.75 — 5 lbs. \$8.25 — 10 lbs. \$16.00 — 25 lbs. at \$1.55 lb. — 50 lbs. or more at \$1.50

## Plant Foods for Gardens and Lawns

**GREENS AND FAIRWAYS.** 10-6-4 with partly organic nitrogen is ideal for fall application to lawns. 25 lb. bag \$1.95, 50 lb. \$3.25, 100 lb. \$6.25.

**SACCO.** 4-12-4. For gardens, lawns, trees and shrubs. 25 lb. \$1.69, 50 lb. \$2.55, 100 lb. \$4.85.

**MILORGANITE.** 5% nitrogen 4% Phosphoric acid, all organic. Non-burning, so safe to use in warm weather. Excellent for lawns. 40 lb. \$2.45, 80 lb. \$4.00.

**ORGAMIN.** Soil conditioner and plant food. Work into the soil before seeding. 80 lb. bag \$4.00.

**BONE MEAL.** Excellent food for bulbs, roses and lawns. 10 lb. \$1.20, 25 lb. \$2.45, 50 lb. \$4.00, 100 lb. \$7.00.

**WED-O.** 6-10-4 analysis plus 2, 4-D Weed Killer, so you feed the grass and kill weeds at same time. Apply 10 lb. per 1000 sq. ft. 25 lb. \$2.50, 50 lb. \$3.75, 100 lb. \$7.25.

**ACTIVO.** Turns garden refuse into rich organic manure. Use it on grass clippings, leaves, any composting material. No. 2 size (for 400 lbs. compost) \$1.00; No. 7 size (for 1300-1700 lbs. compost) \$2.95; No. 20 size (for 2-3 tons compost) \$6.95.

# Letherman's Fragrant Hyacinths

*ONCE PLANTED, HYACINTHS ARE BEAUTIFUL FOR YEARS*

## PINK, ROSE AND RED HYACINTHS

**LADY DERBY.** Fine large bright rose.

**LA. VICTOIRE.** Glistening deep red. For bedding, pots or glasses.

Very fine varieties. Red—Pink—White .....	Any color 95c	— 3 for \$2.70	— doz. \$9.60	
---	---------------	----------------	---------------	--

TULIP GROUPS  
BRIGHTEN YOUR BORDER

# Letherman's Giant Darwin and Cottage Tulips

The most popular groups because of the rich colorings, the size and formation of the flowers, the height of stem, and the fact that they bloom in late May and early June when the weather is pleasant enough to thoroughly enjoy your plantings.

After the variety name "D" is Darwin, "C" is Cottage and the approximate height is given in inches. These heights are comparative and often under ideal conditions all varieties are taller. All are excellent for outdoor planting, some varieties are better than others for potting. They are marked "F".

Letherman's Tulips are Tops in size and all around quality. They will give the maximum of finest blooms.

## Scarlet - Red - Crimson Shades

<b>WHITE HAWK.</b> 12 in. Pure white .....	.40	1.40	2.65	10.00

## Quality in Tulips

Our Tulips are all top size and from Holland's best growers. They cost you only a trifle more than smaller bulbs but give you much finer and larger flowers.

TRUMPET NARCISSUS — KING ALFRED

The Graceful  
POETS  
NARCISSUS

*These Are Excellent  
For Naturalizing*

## NARCISSUS—DAFFODILS

The names, Narcissus and Daffodils, are used interchangeably, though many people consider the large trumpet varieties of Narcissus as Daffodils. All are beautiful and the creamy, yellow and gold shades are especially welcome in the spring. Plantings of all varieties are long lived, as most increase and soon you have large clumps from small plantings. Plant these bulbs as early as possible.

### Large Trumpet Narcissus
